## New Bali 5.4 Open Space

INCOMPARABLE BECAUSE IT'S UNIQUE !!

Designed by Olivier Poncin and Catana's R&D department, the BALI 5.4 Open Space is characterized by very ergonomic living spaces which are entirely free of bulkheads.

In addition to the recognized innovations such as the rigid forward cockpit with lounge area and sunbathing area; the new platform linking the two sugar-scoops with large bench seat and lockers; the large tilt-and-turn door and sliding windows; and a panoramic relaxation area on the coachroof, the BALI 5.4 offers new access to the forward cockpit by and interior door and cabins by panels opening onto the aft cockpit.

And of course, the safety and performance you would expect from CATANA design !!
