Description

KUKURUZ – Bali 4.6 Open Space (2022)

The *KUKURUZ* is a state-of-the-art Bali 4.6 Open Space catamaran that combines innovative design, maximum comfort, and exceptional use of space. Built in 2022 by Grupo Catana, it offers a unique sailing experience thanks to its open concept, which seamlessly integrates the salon, kitchen, and outdoor areas.

At the bow, it features a spacious cockpit with a lounge area and sunbathing space, directly accessible from the salon through a large front door, creating a perfectly connected social and relaxation area. It includes a bar between the kitchen and the bow cockpit for agile and comfortable service.

The stern has generous seating, large storage lockers, and a sliding door that closes off the salon, providing protection and privacy. The wide and clear side passages allow for safe transit from bow to stern.

Inside, the *KUKURUZ* offers 5 guest cabins and 4 bathrooms, as well as complete equipment for life on board: air conditioning, generator, water maker, fully equipped kitchen, advanced navigation electronics, and entertainment systems.

Powered by two 57 HP Yanmar engines with Sail Drive transmission, it is designed to sail safely and comfortably, whether on long passages or coastal cruises. Its exterior equipment includes a bimini, electric winches, a tender with an outboard motor, and ergonomic resting areas to fully enjoy the sea.

The *KUKURUZ* is the ideal choice for those seeking a modern, functional, and elegant catamaran, ready to set sail and offer maximum enjoyment at every mile.
